

Community Church of Joy ELCA

June 1, 1998

Dear Steve,

This letter serves two purposes. First, I want to thank you for all the service you have given during the chair selection process for our new building. You were very helpful in securing the right product at the right price for the 1800 chairs needed for our banquet/conference/worship center. Thank you for all the time and effort you put into the process.

I spent considerable time evaluating six chair manufactures. Our architect recommended two others. After looking and trying samples from four finalists, it was apparent that that chairs from Chancellor Mfg. Company were far superior to any others. The main factors in our decision were:

- they hooked together easily but firmly
- they had backs that came together to have the feel of a "pew" back
- the back support was excellent
- the bottom cushions were very comfortable
- a wide variety of fabric was available, which pleased our architect and the interior design firm
- the cost was within our budget
- the chairs were delivered the very day they were promised, with no damage in shipment.

I would be happy to have anyone call or pay a visit to see how we are using the Chancellor product.

Thanks again Steve for all you have done.

Sincerely,

Wayne S. Skaff, General Manager
