To Whom It May Concern:

We recently completed a building project that included adding a chapel to our church. It seats 70 persons.

We contacted Steve Cox, sales representative for Chancellor Manufacturing Inc. for assistance in furnishing the chapel. We purchased the altar, lectern, and the flower stand for the altar. In addition we purchased locking and stacking chairs for the chapel itself and 2 clergy chairs.

We asked Chancellor to design the words of Psalm 23 verse 2 so that they could be wall mounted on the back of the chancel. We have received many compliments on this work.

All the work was professionally done. Everything matches perfectly. We had a small problem with the top rail on the chapel chairs. This problem was corrected on a timely basis and done very efficiently.

We recommend Steve Cox and Chancellor to work with churches and the furnishing.

Sincerely,

Renata Miron  
Secretary,  
Building Committee
