To Whom It May Concern:

We ordered 250 Chancellor manufactured chairs for our overflow area of our sanctuary last fall. Steve Cox was our sales representative and worked with us in obtaining a price acceptable to everyone involved and allowed us the time to raise the money to purchase them.

From the beginning, Mr. Cox was accommodating in his advice and provided all the information the Committee needed to make a choice. The Committee had also worked with him in selecting the pews for our new Chapel and was completely satisfied. The pews for our Sanctuary were also purchased through his company eight years ago. In other words, the church has a history with the companies he represents and was more than willing to go back to them when we were seeking new chairs to replace the ones originally purchased for the church in 1985.

To our delight, the chairs arrived in time for our Christmas services, almost a month earlier than what we expected. They were exactly what we wanted and have made a fresh, brightening and comfortable addition for our worshippers. They lock together, which is a great plus, keeping the rows straight and neat. We chose not to get the pockets on the backs or the rack underneath, because we felt they were not necessary for our use.

We would highly recommend Chancellor chairs to any congregation seeking either primary seating or secondary seating for their church. We are completely satisfied and are happy we made the choice.

Sincerely,

Jacky Jarrell
Office Manager

Myron E Nysether, Pastor for Administration, Care and Welcome
Peter S Perry, Pastor for Discipleship, Mission and Worship
