Attention: Management

Gentlemen:

Recently your representative, Steve Cox, visited our church to take care of any problems that may have developed and to insure we were completely satisfied with your product and the installation.

His visit reminded me that this letter is long overdue. The renovation of our church was completed some time ago and the church consecrated by our Bishop on December 8, 2000.

We as a congregation and I, as Project Manager, are very pleased with the pews furnished by the Marshall Company. Your Factory Representative, Steve Cox, was most helpful and accommodating. The quality of your church furniture, the courtesy shown by your crew and Steve are commendable. The pews were delivered and installed in the time specified in the order. I would be pleased to be considered a reference for your firm at any time.

Sincerely yours,

Richard R. Faulkner  
Project Manager
